

# Model 7902 AccuMold® Elite™ Double Magazine Pouch Bianchi Leather Holsters

Tuesday, October 16 2012, 2:54 PM

10/2/12 (Juan)

Today I went to Butch's Gun shop with a caliper and a six pack to confirm the data that was used on the current design.

The conclusion was and still is:

- **The #4 size is the most versatile.**
- It is for double stack wide clips (size 4)
- double stack is nearly the same and would work fine on a covered holder (size 2)
- A shim can be used to accommodate single stack in a covered holder (size 1)
- Hight differences can be sorted by the flap design
- Uncovered holders would require independent designs for a tight and secure fit
